

"Opportunities for undergraduate and graduate research at the MD Anderson Cancer Center"

Thursday, Nov. 9, 2017 // 6:30-7:30pm
101 Jordan Hall of Science

Gheath Al-Atrash, D.O., Ph.D. is an associate professor of medicine at the University of Texas MD Anderson Cancer Center. He is a physician-scientist in the Department of Stem Cell Transplantation and Cellular Therapy. He completed his medical and graduate training at the University of North Texas Health Science Center. He then completed his residency in internal medicine at the Cleveland Clinic Foundation and his fellowship in medical oncology and hematology at the University of Texas MD Anderson Cancer Center. His research interests include immunotherapy development for leukemia, multiple myeloma, and breast cancer, including T cell and antibody therapies. He is also working on antigen discovery and the biology of antigen processing and presentation by tumor cells.

Please RSVP to Professor Datta at adatta@nd.edu if you plan to attend this event.

Refreshments will be provided.
