

Assistant/Associate Professor of Global Health & Infectious Disease

The Department of Biological Sciences at the **University of Notre Dame** invites applications at the Assistant or Associate Professor level for an individual working on an infectious disease pathogen or pathogen vector of importance in the area of Global Health. The candidate should have a Ph.D. or equivalent and a demonstrated record of research and teaching excellence. She/he should complement the broad university program of global health research currently centered in the Eck Institute of Global Health <http://www.nd.edu/~cghid>. Individuals with expertise in any area involving the biology of a human pathogen, pathogen vector, or the response of the human host to infection, particularly those with cross-disciplinary research programs, are encouraged to apply. This position is one of five faculty searches associated with the Eck Institute, including two ongoing searches on genomics and bioinformatics and two future hires in epidemiology and disease ecology. Excellent core facilities exist in the areas of genomics, bioinformatics, and imaging. Specialized facilities such as BSL-3 containment laboratories, insect rearing and research facilities, and AAALAC accredited animal facilities are available. The successful candidate will teach one undergraduate course and develop one graduate course in an area of interest. Additional information on departmental and other university faculty and facilities can be found at <http://biology.nd.edu> and <http://science.nd.edu>. Opportunities also exist for collaboration with the research programs at the adjoining Indiana University School of Medicine-South Bend. Applications will be accepted until December 1, 2008, but review will commence immediately. Qualified individuals should send their curriculum vitae, a summary of current research and teaching interests, and the names and addresses of three references to: **Chair, Global Health Search Committee, Department of Biological Sciences, University of Notre Dame, Notre Dame, IN 46556-0369**. For more information, email the search chair Dr. Frank Collins at frank@nd.edu.

The University of Notre Dame is an Affirmative Action/Equal Opportunity Employer. Women and minority candidates are encouraged to apply.
