**DOCTORS SAVE LIVES.
SCRIBES SAVE DOCTORS.**

“Being a scribe is a perfect job for anyone wanting to pursue a career in medicine. The job is not only a tremendous learning experience, but you’re actually making a difference by assisting the doctors to be more efficient so they can focus more on the quality of care for their patients.”

AMY HOGAN, 2010

WHAT IS A MEDICAL SCRIBE?

A Medical Scribe is a revolutionary concept in modern medicine. Traditionally, a physician’s job has been focusing solely on direct patient contact and care. However, the advent of the Electronic Health Record (EHR) created an overload of documentation and clerical responsibilities that slows physicians down and pulls them away from actual patient care. To relieve the documentation overload, physicians across the country are turning to Medical Scribe services.

A Medical Scribe is essentially a personal assistant to the physician; performing documentation in the EHR, gathering information for the patient’s visit, and partnering with the physician to deliver the pinnacle of efficient patient care.

WHY BECOME A MEDICAL SCRIBE?

For someone interested in medicine, whether it is a personal interest, or part of a career goal to become a physician or physician assistant, the chance to become a Medical Scribe is unlike any other opportunity available. It offers exciting one-on-one collaboration with a physician, and is unprecedented in its level of exposure to real medicine in practice.

A background in Medical Scribing is quickly becoming the standard for pre-medical experience, and is suggested by medical school acceptance committees across the country. The competition to become a Medical Scribe is intense, and the demand for Medical Scribe services across the country has never been higher.

MAKING A DIFFERENCE

"Scribe America is a great program that prepared me in many ways for medical school. Working side by side with doctors in the emergency room gave me an incredible real-life experience to apply to all the classes I am taking now. Diagnosing is intimately related to recognizing patterns in patient symptoms and while working with Scribe America I was able to watch the physicians think their way through patient cases and absorb countless amounts of information. Having also volunteered in hospitals and taken part in research prior to entering medical school, I would say that my time with Scribe America was the most influential factor in giving me confidence in my decision to pursue a career in medicine. The one-on-one experience with physicians, the variety of patient cases and symptoms, the introduction to medical diagnostic techniques, and the vast amounts of medical terminology have all been invaluable to my current student status besides that I thoroughly enjoyed coming to work every day. I have and will continue to recommend Scribe America to any person contemplating medical school with a desire to learn and work hard."
