

Hello College of Science Graduating Seniors!

With graduation around the corner in ~7 months (~2 for those graduating in December!), I'm sure you are all thinking about what to do once you leave your home under the dome. As a 2017 graduate, I remember being in your shoes and here is a great opportunity for those looking to work for a leading company in the healthcare IT sector. A little bit about the company: **Epic** is a healthcare software company in Madison, WI. We create software that goes into large clinics and hospitals to store patient information, and track and improve patient care. We have a variety of roles available that are both technical and non-technical in nature. Our Recruiting team is looking to fill needs for our Technical Problem Solver, Project Manager, and Software Developer teams within the next 6-9 months. You can learn more at careers.epic.com, or contact careers@epic.com with any questions!

Feel free to reach out to me directly with questions as well.

Go Irish (6-0!),
Grant Koch, ND Biology Class of 2017
