

Summer 2019 Paid Internships

Simmons Cancer Institute

Southern Illinois University Medicine

Applications for the 2019 summer lab internships at Simmons Cancer Institute (SCI) at Southern Illinois University Medicine are now being accepted through March 15, 2019. The cancer institute will award four positions to qualified undergraduate college students who plan a career in medicine or biomedical research with a focus on cancer. The paid summer internship provides hands-on experience for college undergraduates and are awarded on a competitive basis.

Selected interns will learn laboratory skills and concepts of cancer biology while working under the supervision of SCI faculty members. One internship position will be offered at the SIU Carbondale campus. The remaining three will be at the School of Medicine campus in Springfield, IL.

Requirements

Qualified undergraduates are defined as individuals who have completed their freshman year of college by June 2019 and will enter their sophomore, junior or senior year in fall 2019.

Applicants are required to submit a current college transcript, resume and a personal statement letter describing current studies, activities and future career goals. Applicants must also arrange to have two letters of reference from college instructors submitted prior to the deadline.

Applications should be submitted as a single PDF document and emailed to Denise Kauffman at dkauffman98@siumed.edu. Instructors should email their reference letters directly to Denise Kauffman. Contact Denise with any questions or for additional information at 217-545-2220.

The mission of Simmons Cancer Institute at SIU is to serve the people of central and southern Illinois by addressing their present and future cancer needs through education, research, patient care and community service. Its website is www.siumed.edu/cancer.
